Re: Madison, NH

For the tax year 2025, all property values will be updated to market value as of April 1, 2025. With the real estate market fluctuating over the past several years, many property owners will see values increase substantially; however, some may not increase by the same percentage as others, as it is heavily dependent on the sale properties, location, quality, size, condition, previous assessment, etc. Just because values increase, DOES NOT NECESSARILY mean that your taxes will increase.

Taxes are based on the combined budgets for the town, school, and county. The tax rate is determined by taking the total of those budgets divided by the overall value of the Town to arrive at a tax rate to “pay the bills”. Unfortunately, there is no way to determine the impact of the update until after the values are finalized and until after the NH Department of Revenue Administration (DRA) calculates the total amount of money needed to “pay the bills”. That process takes place in the fall, usually in October, with the town’s tax rate the result.

As part of this process, Avitar, assessing staff members, will measure and list all the sale properties to verify that the data is correct as possible, as they are the basis for the new values. Once we analyze the sales and develop preliminary values, there will be a field review of the entire town, which is just a drive-by parcel by parcel of every property to verify location, site characteristics, quality, condition and so forth to be consistent as possible.

Once the preliminary process is complete notices with the new preliminary values will be mailed to every property owner. That notice will include information so that you can schedule a phone appointment to speak with an Avitar representative to discuss your assessment, should you have any questions or concerns. Also included in the notice are instructions to access the online database and review the information about your property and every other property in town, including the sale properties that were used to help establish the new values.

As part of this process, the DRA has some oversight responsibilities, which includes visiting a sampling of those properties to verify data accuracy and monitoring the hearing process. Once the update has been completed, Avitar will deliver to the town a manual which describes the process in detail. The DRA will also review that manual for compliance with applicable state law.

If at the end of the process, you have any further questions or concerns, please contact the town, as they will take your contact details and Avitar will reach out as soon as possible.
